Happy PARENTS

“

Handling Dhruv's studies was the most difficult thing during the pandemic. Although, we had many options but we were concerned about how they will work. Our search continued and stopped when we got to know about Homeschooling classes by ALLEN IntelliBrain.

They focus on practical learning rather than rote learning, that has made Dhruv grown in terms of knowledge and confidence. He gets good attention from his trainers and we are happy to see him getting future-ready.

And, this has made us realize the difference that the digital classes of ALLEN IntelliBrain have created for a better understanding of concepts.

Parents of **Dhruv Agrawal**

Intelli Homeschooling is a perfect mix of affection and discipline that our daughter has received. By enrolling Avisha for Intelli Homeschooling, we have personally felt that only school classes would never have done such wonders that IntelliBrain has done. It has not only made her academic concepts strong but also has helped her to relate them to real-life situations.

With their unique methodology of the experimental, experiential and edutaining mode of learning, they have kept their promise of developing Love for Learning in Avisha as she waits for her Intelli sessions eagerly. The way they manage the schedule of sessions, clear doubts & take regular tests to assess performance online is really appreciable.

Homeschooling is the perfect choice that we made for her.
