SAMPLE THEORY

CHAPTER 1

CODING DECODING

Coding is a way to encrypt a message in a secret form following a certain rule, whereas Decoding is a process to decrypt the coded message.

Example:

TYPES OF CODING DECODING

Type 1: Number/Symbol Coding

In this type of coding, either letters of the English alphabet or Numbers are assigned symbols or other letters or numbers to code them. Also, in this type of coding, we deal with two different problems, as shown below.

Direct Coding

In this case, either numbers/symbols are assigned to letters or letters/symbols are assigned to the numbers directly to form a code. We analyse the code as done in the following example.

Example: If AGREE is coded as !%@\$ and TEMPER is coded as /\$*#\$\$@, then what will be the code for PAMPER ?

(1) %\$*!!@

(2) #!*#\$\$@

(3) /!*/\$@

(4) #!*#\$\$#

Solution: (2) #!*#\$\$@

On noting down the respective codes for each letter of the given words, we get:

Position of Letters in English Alphabet Series

In this case, the code for a word is formed by using the position number of its letters in the English Alphabet series and then using mathematical operations (addition, subtraction, multiplication or division) on the position numbers.

Alphabet	A	B	C	D	E	F	G	H	I	J	K	L	M
Position of letters	1	2	3	4	5	6	7	8	9	10	11	12	13
Reverse Position of letters	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabet	N	O	P	Q	R	S	T	U	V	W	X	Y	Z
Position of letters	14	15	16	17	18	19	20	21	22	23	24	25	26
Reverse Position of letters	13	12	11	10	9	8	7	6	5	4	3	2	1

Example: In a certain code language, CAFE is coded as 15, then how is RESTAURANT coded in that code language?

(1) 130

(2) 127

(3) 125

(4) 137

Solution: (4) 137

On adding the position number of each letter of the given word we get,

$$\text{CAFE} = \text{C} + \text{A} + \text{F} + \text{E}$$

$$\text{CAFE} = 3 + 1 + 6 + 5 = 15$$

As we can see, the code for the given word CAFE is 15, i.e. the sum of the position number of each letter of the given word in the English Alphabet series.

Similarly, on applying the same code rule for the word RESTAURANT we get,

$$\text{RESTAURANT} = \text{R} + \text{E} + \text{S} + \text{T} + \text{A} + \text{U} + \text{R} + \text{A} + \text{N} + \text{T}$$

$$\text{RESTAURANT} = 18 + 5 + 19 + 20 + 1 + 21 + 18 + 1 + 14 + 20 = 137$$

Therefore, the code for the word RESTAURANT is 137.

LOGICAL REASONING

SAMPLE EXERCISE

EXERCISE

GRADE-7 Coding Decoding

Directions: Solve the following multiple choice questions by choosing the most appropriate option.

1. In a certain code language, WEST is coded as QYMN, then in the same code language, EAST will be coded as _____.
 (1) KGYZ (2) YUMN (3) ZVNO (4) YVMO
2. If NEST is coded as PGUV, then in the same way, what should be the code for JUNGLE ?
 (1) KVOHMF (2) LUPGLG (3) LTPFND (4) LWPING
3. If HUMAN is coded as KRPXQ, then PEOPLE will be coded as _____.
 (1) SBRMOB (2) SHRSOH (3) SCRNOG (4) MHLSMF
4. In a certain code language, SPRING is written as UNTGPE. How is WINTER written in that code language ?
 (1) XJOUFS (2) YHTFRC (3) YGPRGP (4) UKLVCT
5. If DMHBHCDL is the code for MEDICINE, then find the code for PRECAUTIONS.
 (1) TOPJUVBDFSQ (2) RMNHSTZBDQO (3) SNOITPRECAU (4) QSFDBVUJPMPT
6. If 'Red' is called 'Brown', 'Brown' is called 'Orange', 'Orange' is called 'Green' and 'Green' is called 'White', then which colour is present at the bottom of the Indian Flag ?
 (1) Orange (2) Green (3) White (4) Brown
7. If 'Kitten' is called 'Calf', 'Calf' is called 'Fawn', 'Fawn' is called 'Duckling' and 'Duckling' is called 'Foal', then baby Deer's are called as _____.
 (1) Fawn (2) Kitten (3) Duckling (4) Calf
8. If 'Baseball' is called 'Golf', 'Golf' is called 'Hockey', 'Hockey' is called 'Wrestling' and 'Wrestling' is called 'Basketball', then belt and jacket style belongs to which sport ?
 (1) Golf (2) Wrestling (3) Baseball (4) Basketball
9. If 'Oxygen' is called 'Carbon Dioxide', 'Carbon Dioxide' is called 'Nitrogen' and 'Nitrogen' is called 'Hydrogen', then which gas is present in the maximum amount in the atmosphere ?
 (1) Oxygen (2) Hydrogen (3) Carbon Dioxide (4) Nitrogen
10. If EUROPE is coded as UERPOE, then MUMBAI will be coded as _____.
 (1) UMMBAI (2) MUMIAB (3) UMMABI (4) IABMUM

11. If 'WONE' is coded as '2319', 'WENT' is coded as '7919' and 'JOF' is coded as '439', then what will be the code for 'WONEY'?
- (1) 7219 (2) 72185 (3) 21427 (4) 72851
12. In a certain code language, 'ENTER' is written as '12475' and 'INCOME' is written as '1475123', then 'MENTOR' will be written as _____.
- (1) 1247589 (2) 1475123 (3) 1247589 (4) 1247589
13. If 'FOREST' = 83, then in the same code language 'FIELD' = ?
- (1) 36 (2) 43 (3) 18 (4) 12
14. In a certain code language, 'BUDGET' is written as '123456' and 'DEAL' is written as '2519'. Then how 'GADGET' is written in that code language?
- (1) 743456 (2) 124737 (3) 473456 (4) 124519
15. If 'ATE' = 15 and 'CAT' = 8, then in the same code language 'ART' = ?
- (1) 26 (2) 13 (3) 36 (4) 12
16. What will be the code for 'SWEETS', if 'VEGETABLES' = 26 and 'SPEL' = 15?
- (1) 4 (2) 18 (3) 24 (4) 31
17. If 'PAIN' = 4 and 'PEACE' = 1, then the code for 'PAIN' is _____.
- (1) 1 (2) 16 (3) 4 (4) 5
18. If 'Science' means 'Mathematics', 'Mathematics' means 'English', 'English' means 'Hindi' and 'Hindi' means 'Sanskrit', then 'विज्ञान' (Vijnan) means _____.
- (1) English (2) Mathematics (3) Science (4) Hindi
19. If 'Monitor' means 'Mouse', 'Mouse' means 'Keyboard', 'Keyboard' means 'CPU' and 'CPU' means 'Printer', then what is used for typing?
- (1) Mouse (2) Keyboard (3) CPU (4) Printer
20. If 'Uncle' means 'Father', 'Father' means 'Brother', 'Brother' means 'Nephew' and 'Nephew' means 'Grandfather', then the only daughter of Arun's father's father is Arun's _____.
- (1) Aunt (2) Grandfather (3) Father (4) Uncle
21. If 'Square' means 'Cube', 'Cube' means 'Pyramid' and 'Pyramid' means 'Prism', then the shape of a mountain is considered as _____.
- (1) Cube (2) Prism (3) Square (4) Pyramid
22. Identify the correct code for 'DREAM', if 'DREAM' is coded as 'A - B C D' and 'DRAFT' is coded as 'A - B C D'.
- (1) A - B C D (2) A - B C D (3) A - B C D (4) A - B C D
